Drawbridge

Marketing Strategy

SEPTEMBER 2025

Brand Narrative

Drawbridge is more than a cyber partner. It is the **platform at the centre of the alternative investment ecosystem**. With thousands of MSPs, 5,000 vendors, and a client base spanning the industry, Drawbridge collects, organises, and analyses more proprietary data than any other player.

This creates a **defensible moat**: a closed loop of insights that competitors cannot replicate. The platform doesn't stand alone. It is powered and interpreted by Drawbridge's advisory expertise. Together, they give clients a clear score, a benchmark, and the ability to raise their guard against risk.

Core Business USPs : Cyber Risk Intelligence

01

Platform Leadership

The only provider uniting MSPs, vendors, and clients in one ecosystem.

A true marketplace of insight, intelligence, and benchmarking.

02

The Data Moat

Proprietary, aggregated data from thousands of participants.

Competitors cannot recreate this vantage point.

Benchmarking and sentiment insights are built on *Drawbridge's unique dataset*

03

Advisory & Platform Synergy

Advisory brings context, clarity, and practical action to platform outputs.

Platform provides the evidence base that makes advisory powerful.

Together, they deliver continuous improvement: raise your guard, raise your score, raise your bar.

04

Proven Progress

Drawbridge evolves every year through new benchmarking, features, and services.

Perceptions of "standing still" are countered with proof points of innovation.

Core Business USPs : Elevated & Client Focused

01

Platform Leadership → Ecosystem Convener

Not just “the only provider uniting MSPs, vendors, and clients” but explicitly “the convenor at the centre of the alt-investment ecosystem.” This shifts the tone from *functional platform* to *market leadership role*.

02

The Data Moat → Proprietary Insight Engine

Rather than “proprietary, aggregated data” (which sounds abstract), anchor it to value: “The only closed-loop dataset spanning MSPs, vendors, and funds, giving clients benchmarking and sentiment intelligence no one else can provide.”

03

Advisory & Platform Synergy → Intelligence + Action

Frame this synergy less as “two halves working together” and more as “the Drawbridge difference”: data becomes meaningful only through advisory, and advisory becomes credible because it’s powered by proprietary evidence. This clarifies why the combination is unique.

04

Proven Progress → Continuous Innovation

Instead of defending against the “no innovation” perception, claim the opposite space: “Drawbridge evolves every quarter with new features, services, and benchmarks, setting the standard for progress in alt-investment cybersecurity.”

Messaging Thread

Drawbridge already has a powerful umbrella in “Raise Your Guard.” This can be expanded into a **three-tier client journey**:

- **Raise Your Guard** → Protect (cyber vigilance, ecosystem trust).
- **Raise Your Score** → Measure (benchmarking, proof of progress).
- **Raise Your Bar** → Improve (advisory + platform synergy, continuous improvement).

That unifies platform, data moat, and advisory while giving a simple, memorable client-facing progression.

Drawbridge can also use the “Raise Your Guard” Tagline as the Bridge as a creative bridge for additional messaging.

For example:

- Post: “**Raise Your Guard. Lower Your Risk.”**
  Link: “Our continuous monitoring platform identifies vulnerabilities before attackers do — here’s how it works.”
- Post: **“Raise Your Guard. Pass the Test.”**
  Link: “ODD prep services that help you clear investor due diligence with confidence.”
- Post: **“Raise Your Guard. Protect Your Returns.”**
  Link: “Our independent assessments and advisory services reduce operational disruption and reputational damage.”

Core Messaging

1. Independent & Dedicated Cybersecurity
Unbiased protection built solely for alternative investment firms. No conflicts of interest, unlike IT or compliance providers.

2. Intelligence-Led Risk Management
Real-time monitoring, proactive assessments, and peer benchmarking across 1,000+ firms to give clients a clear, data-backed view of their cyber posture.

3. Expert Advisory & Human Support
Ongoing, dedicated guidance from cyber specialists who understand the alt investment landscape and adapt to evolving risks.

4. Proven Track Record in the Sector
Trusted by 1,000+ funds, safeguarding $1.7T+ in assets and enabling over 2,000 successful ODDs.

5. “Raise Your Guard” Mindset
A proactive, industry-wide rally cry to reduce exposure, protect returns, and inspire investor confidence.

USP, Core Messaging & Service Alignment

Service Pillars (Client-facing):

1. **The Drawbridge Platform** – continuous monitoring, ecosystem insights.
2. **Benchmarking & Insights** – proprietary scores, peer comparisons, sentiment analysis.
3. **Advisory-Integrated Programmes** – ODD prep, remediation, risk governance.
4. **Innovation & Evolution** – quarterly platform updates, new benchmarking, emerging risk coverage.

Core Messaging (Aligned to Pillars):

- Independent & ecosystem-led cybersecurity (**The Drawbridge Platform**)
- Intelligence-led risk management powered by proprietary data (**Benchmarking & Insights)**.
- Advisory + platform synergy that turns evidence into investor confidence (**Advisory-Integrated Programmes)**.
- Trusted track record + proof of continuous innovation (**Innovation & Evolution**).
- “Raise Your Guard, Raise Your Score, Raise Your Bar” as the unifying thread.

Target Personas : Primary

THE ‘KNOWS IT ALL’ CTO

MINDSET

Confident in existing technical measures; sceptical of external warnings.

PAIN POINTS

Believes the firm is less vulnerable than the market average.
Reluctant to admit gaps in cyber posture.

MOTIVATION TO ACT
Peer benchmarking showing where they *really* stand.
Regulatory and investor pressures they can’t ignore.

MESSAGING ANGLE
“You may already be strong, but here’s how you can *prove it* to investors and regulators.”

THE ‘HAS IT ALL’ CFO/CCO

MINDSET

Thinks current setup meets requirements; wants cyber risk off their plate.

PAIN POINTS

Perceives cyber as a compliance box-tick.
Competing priorities and limited bandwidth.

MOTIVATION TO ACT
Cost of non-compliance, reputational loss, and potential for capital flight.
Confidence that an independent provider will *own the problem* end-to-end.

MESSAGING ANGLE
“Outsource your cyber headaches to a trusted, dedicated partner who delivers measurable investor confidence.”

THE ‘WANTS IT ALL IN ONE ’ COO

MINDSET

Assumes the MSP/IT provider has cybersecurity handled.

PAIN POINTS

Over-reliance on conflicted providers who may downplay vulnerabilities.

Lack of independent verification of controls.

MOTIVATION TO ACT
Understanding the conflict of interest in having IT police itself.

Proof of stronger investor trust through independent assessments.

MESSAGING ANGLE
“Your IT runs the systems. We make sure those systems are safe.”

Target Personas : Secondary & Product-led

THE ALLOCATOR/LP

MINDSET

Concerned about capital at risk; increasingly demanding cyber disclosures.

PAIN POINTS

Lack of visibility into the manager's cyber readiness.

Past experiences with breaches affecting returns.

MOTIVATION TO ACT
Allocators want proof points — scores, benchmarks, and audits.

MESSAGING ANGLE
"We help managers meet — and exceed — your cyber expectations."

THE COMPLIANCE CONSULTANT / ODD PROVIDER

MINDSET

Works alongside managers; sees cybersecurity gaps.

PAIN POINTS

Needs a trusted specialist to hand off complex cyber work.

MOTIVATION TO ACT
Protect their own credibility by recommending a proven provider.

MESSAGING ANGLE
"A partner you can confidently recommend to clients."

THE DO-ER'S

TO BE DISCUSSED WITH THE INTERNAL TEAM

Services Hook & Messaging

- **CTO (“Knows It All”)**
  Service Hook: Peer benchmarking score + penetration testing results from Drawbridge platform.
  Message: “Here’s your cyber posture compared to 1,000+ firms and where you can gain an edge.”
- **CFO/CCO (“Has It All”)**
  Service Hook: End-to-end cyber programme with continuous monitoring + advisory, no internal resource drain.
  Message: “We handle cyber from start to finish, so you can focus on capital performance.”
- **COO (“Wants It All-in-One”)**
  Service Hook: Independent vendor due diligence + conflict-free remediation plans.
  Message: “Your IT runs the systems. We independently verify they’re secure.”
- **Allocator / LP**
  Service Hook: Benchmark scores + ODD prep services for transparency.
  Message: “Give investors a proof point they can trust.”
- **Compliance Consultant / ODD Provider**
  Service Hook: Specialist cybersecurity support packages they can plug into their audits.
  Message: “Partner with a trusted name your clients will recognise.”

Content Pillars

- **1. The “Raise Your Guard” Awareness Series (Build on Tagline)**

  Goal: Embed the rally cry and position Drawbridge as *the* cyber partner for alternative investment firms.
- **2. The “3 Gamechangers” Educational Campaign**

  Goal: Deliver thought leadership tied to the core differentiators of the business.
- **3. The “Escalating Exposure” Risk Awareness Series**

  Goal: Create urgency and show the cost of inaction.
- **4. Case Story Spotlights**

  Goal: Prove ROI through client success stories.
- **5. Event-Driven Campaigns**

  Goal: Capture attention around conferences & networking moments.
- **6. Pushback Busters**

  Goal: Overcome common objections via public thought leadership.

  - Create a series of “We hear this a lot…” posts addressing each pushback in p.90–92 of the pitchdeck.
  - Use these as text posts or quick talking-head videos from senior team members.

Marketing Strategy

FRAMING THE CONTENT STRATEGY

Objective:

- Align brand pillars, service pillars, and content pillars.
- Create a repeatable framework for LinkedIn and marketing campaigns.

Why It Matters:

- Builds consistency across channels.
- Reinforces Drawbridge's ecosystem leadership.
- Ensures every post links back to a core USP.

THE HIERARCHY

- **Brand Pillars** – What we stand for (Platform, Data Moat, Advisory + Platform, Innovation).
- **Service Pillars** – What we sell (Platform, Benchmarking & Insights, Advisory Programmes, Innovation & Evolution).
- **Content Pillars** – What we talk about (editorial themes that fuel LinkedIn & marketing).

EXECUTION

- LinkedIn
- Case Studies
- Whitepapers
- Thought Leadership
- Video
- Events

Visual *Development*

LACEWING

LACEWING

The goal of the next series of pages is to confirm a visual direction for your brand moving forward and contains our proposed direction for your identity.

By implementing our suggested updates, Drawbridge will have a brand identity that reflects their mission of being a forward-thinking business that is dedicated to providing the highest service standards and quality benchmark within the alternative investment cyber sector.

Colors

The existing Drawbridge Orange in practice can be pale and out-dated. Drawbridge provide secure and strong cybersecurity solutions and by boosting the Orange to a bolder, more vibrant shade we will create a premium and confident look, positioning you as experts in the market.

This will form main part of the brand colors, with the Teal color used as an accent to lead users eyes to things like website buttons and calls to action.

Black

Orange

White

Light Gray

Slate

Teal

Typography

The current font used throughout the Drawbridge branding is clean and easily read, but lacks character and risks blending in with competitors' sites.

Headlines are prime real estate and are often the first impression of a visual identity, so by introducing a new headline font we will strengthen the brand with a more distinctive, stand-out look.

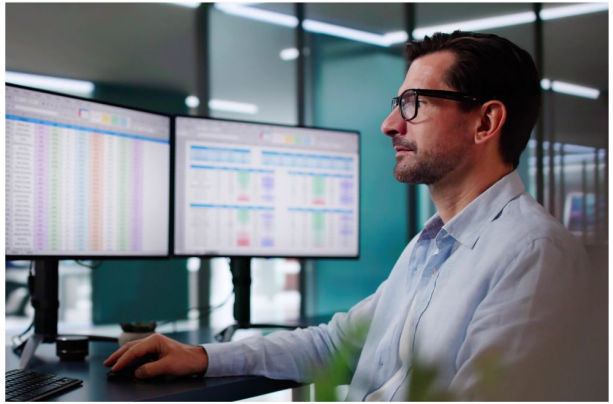
Headline Font: Archivo

Raise Your Guard.
Lower Your Risk.

Imagery: *People-led*

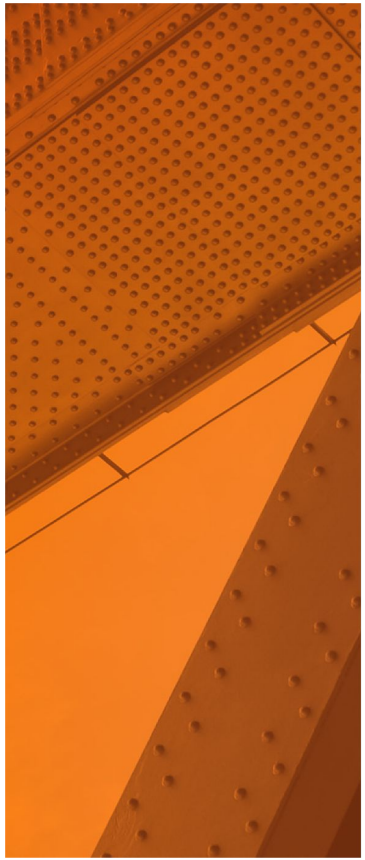
Photography is another key aspect of a visual identity. It gives us an opportunity to connect with our audiences in an immediate, high-impact way.

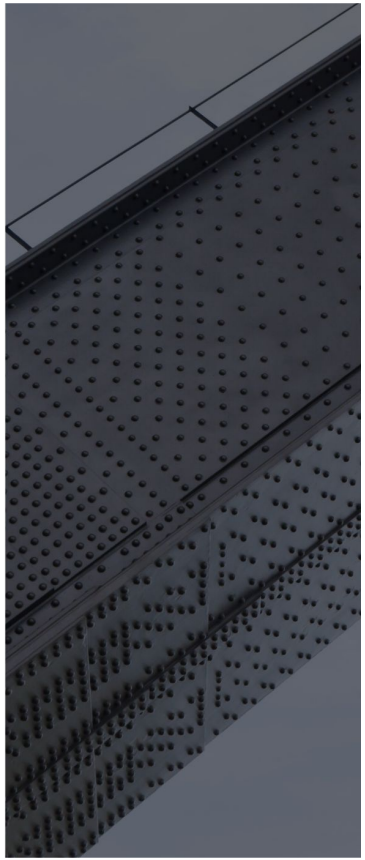
It is essential to use imagery that people can look at and relate to. The current Drawbridge imagery can feel faceless and unrelatable. By mixing in some people-led images to the website and marketing material, we will make the identity appear more authentic.



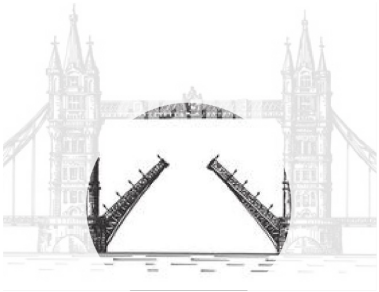
Imagery: *Cropped bridges*

Inspired by the company name, abstract crops of bridges demonstrate strength and security. This separates Drawbridge from the mass of typical padlock and shield imagery used by competitors and anchors you to your brand pillars.





Imagery: *Pattern*



Patterns can act as visual shorthand for your brand identity and add flexibility and depth to a design. Overusing a logo can make communications feel repetitive - A brand pattern gives you a secondary visual device to maintain cohesion without relying solely on the logo.

We have created a shield cross inspired by the shapes of a rising bridge, to give you custom cyber data style asset.
